DETAILED ACTION

Allowable Subject Matter

Claims 29-55 are allowed.

The following is an examiner's statement of reasons for allowance:

Re claims 29, 40, 51 and 53, the prior art fails to teach or suggest, "An image processing method and apparatus comprising: receiving means for receiving ordering information; image taking means fore taking an image based on an image taking condition corresponding to the ordering information received by the receiving means; storing means for storing the image taken by said image taking means and the image taking condition; display control means for controlling display of the image taken by said image taking means; selection means for selecting an image as an object for re-taking from among the already-taken images displayed by said display control means; re-taking instruction means for instructing said image taking means to re-take the image corresponding to the image selected by said selection means; **reading means for reading out the image taking condition corresponding to the image selected by said selection means; setting means for setting the image taking condition read-out by said reading means to said image taking means; re-taking control means for controlling said image taking means to re-take the selected image based on**

the image taking condition set by said setting means; and output means for outputting the re-taken image as the image corresponding to the ordering information”.

Re claims 36, 47 and 52, the prior art fails to teach or suggest, “An image processing method and apparatus comprising: image taking means for taking an image; storage means for storing the image taken by said image taking means associated with an image taking ID, said storage means being able to store plural images wherein the plural images are able to be associated with a single image taking ID; **marking means for attaching a mark to one or more images from among the plural images associated with a single image taking ID, the one or more images being images other than the image newly stored by said storage means; and image output means for outputting the image to which the mark is not attached by said marking means as the image corresponding to the single image taking ID”.**

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”
